

## § 660.21

(v) The applicant has failed to demonstrate a valid justification for the permit.

(vi) The activity proposed under the EFP would create a significant enforcement problem.

(4) The decision to grant or deny an EFP is final and unappealable. If the permit is granted, NMFS will publish a notice in the FEDERAL REGISTER describing the experimental fishing to be conducted under the EFP. The Regional Administrator may attach terms and conditions to the EFP consistent with the purpose of the experiment including, but not limited to:

(i) The maximum amount of each species that can be harvested and landed during the term of the EFP, including trip limits, where appropriate.

(ii) The number, sizes, names, and identification numbers of the vessels authorized to conduct fishing activities under the EFP.

(iii) The times and places where experimental fishing may be conducted.

(iv) The type, size, and amount of gear which may be used by each vessel operated under the EFP.

(v) The condition that observers be carried aboard vessels operating under an EFP.

(vi) Data reporting requirements.

(vii) Such other conditions as may be necessary to assure compliance with the purposes of the EFP consistent with the objectives of the FMP.

(f) *Duration.* Unless otherwise specified in the EFP or a superseding notice or regulation, an EFP is effective for no longer than 1 year, unless revoked, suspended, or modified. EFPs may be renewed following the application procedures in this section.

(g) *Alteration.* Any EFP that has been altered, erased, or mutilated is invalid.

(h) *Transfer.* EFPs issued under subparts B through F of this part are not transferable or assignable. An EFP is valid only for the vessel(s) for which it is issued.

(i) *Inspection.* Any EFP issued under subparts B through F of this part must be carried aboard the vessel(s) for which it was issued. The EFP must be presented for inspection upon request of any authorized officer.

(j) *Sanctions.* Failure of the holder of an EFP to comply with the terms and

## 50 CFR Ch. VI (10–1–03 Edition)

conditions of an EFP, the provisions of subparts A through F of this part, any other applicable provision of this part, the Magnuson Act, or any other regulation promulgated thereunder, is grounds for revocation, suspension, or modification of the EFP with respect to all persons and vessels conducting activities under the EFP. Any action taken to revoke, suspend, or modify an EFP will be governed by 15 CFR part 904 subpart D. Other sanctions available under the statute will be applicable.

(k) *Protected species.* Persons fishing under an EFP must report any incidental take or fisheries interaction with protected species on a form provided for that purpose. Reports must be submitted to the Regional Administrator within 3 days of arriving in port.

### Subpart C—Western Pacific Pelagic Fisheries

#### § 660.21 Permits.

(a) A fishing vessel of the United States must be registered for use under a Hawaii longline limited access permit or a longline general permit if that vessel is used:

(1) To fish for Pacific pelagic management unit species using longline gear in the EEZ around American Samoa, Guam, the Northern Mariana Islands, or other U.S. island possessions in the Pacific Ocean; or

(2) To land or transship, shoreward of the outer boundary of the EEZ around American Samoa, Guam, the Northern Mariana Islands, or other U.S. island possessions in the Pacific Ocean, Pacific pelagic management unit species that were harvested with longline gear.

(b) A fishing vessel of the United States must be registered for use under a Hawaii longline limited access permit if that vessel is used:

(1) To fish for Pacific pelagic management unit species using longline gear in the EEZ around Hawaii; or

(2) To land or transship, shoreward of the outer boundary of the EEZ around Hawaii, Pacific pelagic management unit species that were harvested with longline gear.

(c) A receiving vessel must be registered for use with a receiving vessel permit if that vessel is used to land or

## Fishery Conservation and Management

## § 660.21

transshipment, shoreward of the outer boundary of the fishery management area, Pacific pelagic management unit species that were harvested with longline gear.

(d) A fishing vessel of the United States must be registered for use with a PRIA pelagic troll and handline fishing permit if that vessel is used to fish for Pacific pelagic management unit species using pelagic handline or trolling fishing methods in the U.S. EEZ around the PRIA.

(e) Any required permit must be on board the vessel and available for inspection by an authorized agent, except that if the permit was issued while the vessel was at sea, this requirement applies only to any subsequent trip.

(f) A permit is valid only for the vessel for which it is registered. A permit not registered for use with a particular vessel may not be used.

(g) An application for a permit required under this section will be submitted to the Pacific Area Office as described in § 660.13.

(h) General requirements governing application information, issuance, fees, expiration, replacement, transfer, alteration, display, and sanctions for permits issued under this section, as applicable, are contained in § 660.13.

(i) A limited access permit may be transferred as follows:

(1) The owner of a Hawaii longline limited access permit may apply to transfer the permit:

(i) To a different person for registration for use with the same or another vessel; or

(ii) For registration for use with another U.S. vessel under the same ownership.

(2) An application for a permit transfer will be submitted to the Pacific Area Office as described in § 660.13(c).

(j) A Hawaii longline limited access permit will not be registered for use with a vessel that has a LOA greater than 101 ft (30.8 m).

(k) Only a person eligible to own a documented vessel under the terms of 46 U.S.C. 12102(a) may be issued or may hold (by ownership or otherwise) a Hawaii longline limited access permit.

(l) Except as provided in subpart D of 15 CFR part 904, any applicant for a permit or any permit owner may ap-

peal to the Regional Administrator the granting, denial, conditioning, suspension, or transfer of a permit or requested permit under this section. To be considered by the Regional Administrator, the appeal will be in writing, will state the action(s) appealed, and the reasons therefor, and will be submitted within 30 days of the action(s) by the FMD. The appellant may request an informal hearing on the appeal.

(1) Upon receipt of an appeal authorized by this section, the Regional Administrator may request additional information. Upon receipt of sufficient information, the Regional Administrator will decide the appeal in accordance with the criteria set out in this part and in the fishery management plans prepared by the Council, as appropriate, based upon information relative to the application on file at NMFS and the Council and any additional information available; the summary record kept of any hearing and the hearing officer's recommended decision, if any, as provided in paragraph (1)(3) of this section; and such other considerations as deemed appropriate. The Regional Administrator will notify the appellant of the decision and the reasons therefor, in writing, normally within 30 days of the receipt of sufficient information, unless additional time is needed for a hearing.

(2) If a hearing is requested, or if the Regional Administrator determines that one is appropriate, the Regional Administrator may grant an informal hearing before a hearing officer designated for that purpose. Such a hearing normally shall be held no later than 30 days following receipt of the appeal, unless the hearing officer extends the time. The appellant and, at the discretion of the hearing officer, other interested persons, may appear personally or be represented by counsel at the hearing and submit information and present arguments as determined appropriate by the hearing officer. Within 30 days of the last day of the hearing, the hearing officer shall recommend, in writing, a decision to the Regional Administrator.

(3) The Regional Administrator may adopt the hearing officer's recommended decision, in whole or in

## § 660.22

## 50 CFR Ch. VI (10-1-03 Edition)

part, or may reject or modify it. In any event, the Regional Administrator will notify the appellant, and interested persons, if any, of the decision, and the reason(s) therefor, in writing, within 30 days of receipt of the hearing officer's recommended decision. The Regional Administrator's action shall constitute final Agency action for the purposes of the APA.

(4) Any time limit prescribed in this section may be extended for a period not to exceed 30 days by the Regional Administrator for good cause, either upon his/her own motion or upon written request from the appellant stating the reason(s) therefor.

(m) Except during October, NMFS will not register with a Hawaii longline limited access permit any vessel that is de-registered from a Hawaii longline limited access permit after March 29, 2001.

(n) Applications for the re-registration of any vessel that was de-registered from a Hawaii longline limited access permit after March 29, 2001, must be received at PIAO or post-marked between September 15 and October 15.

[61 FR 34572, July 2, 1996, as amended at 67 FR 40235, June 12, 2002; 67 FR 56501, Sept. 4, 2002]

### § 660.22 Prohibitions.

In addition to the general prohibitions specified in § 600.725 of this chapter, it is unlawful for any person to do any of the following:

(a) Fish for Pacific pelagic management unit species using gear prohibited under § 660.30 or not permitted by an EFP issued under § 660.17.

(b) Falsify or fail to make and/or file all reports of Pacific pelagic management unit species landings, containing all data and in the exact manner, as required by applicable state law or regulation, as specified in § 660.3, provided that the person is required to do so by applicable state law or regulation.

(c) Use a longline vessel without a valid longline general permit or a Hawaii longline limited access permit registered for use with that vessel, to fish for Pacific pelagic management unit species in the EEZ around American Samoa, Guam, the Northern Mariana Islands, or U.S. island possessions in the Pacific Ocean.

(d) Use a longline fishing vessel without a valid Hawaii longline limited access permit registered for use with that vessel to fish for Pacific pelagic management unit species in the EEZ around Hawaii.

(e) Use a receiving vessel without a valid receiving vessel permit registered for use with that vessel to land or transship, shoreward of the outer boundary of the fishery management area, Pacific pelagic management unit species harvested with longline gear.

(f) Transfer a permit in violation of § 660.21(h).

(g) Fish for Pacific pelagic management unit species with longline gear within the protected species zone in the NWHI.

(h) Fail to notify the NMFS Southwest Enforcement Office of intent to enter or depart the protected species zone, as required under § 660.23(b).

(i) Fish with longline gear within a longline fishing prohibited area, except as allowed pursuant to an exemption issued under § 660.17 or § 660.27.

(j) Fail to comply with notification requirements set forth in § 660.23 or in any EFP issued under § 660.17.

(k) Fail to comply with a term or condition governing the observer program established in § 660.28.

(l) Fail to comply with other terms and conditions that the Regional Director imposes by written notice to either the permit holder or the designated agent of the permit holder to facilitate the details of observer placement.

(m) Fish in the fishery after failing to comply with the notification requirements in § 660.23.

(n) Use a U.S. vessel that has longline gear on board and that does not have a valid Hawaii longline limited access permit registered for use with that vessel or a valid longline general permit registered for use with that vessel to land or transship Pacific pelagic management unit species shoreward of the outer boundary of the EEZ around American Samoa, Guam, the Northern Mariana Islands, or U.S. island possessions in the Pacific Ocean.

(o) Use a U.S. vessel that has longline gear on board and that does not have a

## Fishery Conservation and Management

## § 660.22

valid Hawaii longline limited access permit registered for use with that vessel to land or transship Pacific pelagic management unit species shoreward of the outer boundary of the EEZ around Hawaii.

(p) Enter the EEZ around Hawaii with longline gear that is not stowed or secured in accordance with § 660.29, if operating a U.S. vessel without a valid Hawaii longline limited access permit registered for use with that vessel.

(q) Enter the EEZ around American Samoa, Guam, the Northern Mariana Islands, or U.S. island possessions in the Pacific Ocean with longline gear that is not stowed or secured in accordance with § 660.29, if operating a U.S. vessel without a valid Hawaii longline limited access permit registered for use with that vessel or a longline general permit registered for use with that vessel.

(r) Fail to carry a VMS unit as required under § 660.25.

(s) Interfere with, tamper with, alter, damage, disable, or impede the operation of a VMS unit or to attempt any of the same; or to move or remove a VMS unit without the prior permission of the SAC.

(t) Make a false statement, oral or written, to an authorized officer, regarding the use, operation, or maintenance of a VMS unit.

(u) Fish for, catch, or harvest Pacific pelagic management unit species with longline gear without a VMS unit on board the vessel after installation of the VMS unit by NMFS.

(v) Possess on board a vessel without a VMS unit Pacific pelagic management unit species harvested with longline gear after NMFS has installed the VMS unit on the vessel.

(w) Interfere with, impede, delay, or prevent the installation, maintenance, repair, inspection, or removal of a VMS unit.

(x) Interfere with, impede, delay, or prevent access to a VMS unit by a NMFS observer.

(y) Connect or leave connected additional equipment to a VMS unit without the prior approval of the SAC.

(z) Fail to use a line setting machine or line shooter, with weighted branch lines, to set the main longline when operating a vessel that is registered for

use under a Hawaii longline limited access permit and equipped with monofilament main longline, when making deep sets north of 23° N. lat., in violation of § 660.35 (a)(1) and (a)(2).

(aa) Fail to employ basket-style longline gear such that the mainline is deployed slack when operating a vessel registered for use under a Hawaii longline limited access north of 23° N. lat., in violation of § 660.35 (a)(3).

(bb) Fail to maintain and use blue dye to prepare thawed bait when operating a vessel registered for use under a Hawaii longline limited access permit that is fishing north of 23° N. lat., in violation of § 660.35 (a)(4), (a)(5), and (a)(6).

(cc) Fail to retain, handle, and discharge fish, fish parts, and spent bait, strategically when operating a vessel registered for use under a Hawaii longline limited access permit that is fishing north of 23° N. lat., in violation of § 660.35 (a)(7) through (a)(9).

(dd) Fail to handle short-tailed albatrosses that are caught by pelagic longline gear in a manner that maximizes the probability of their long-term survival, in violation of § 660.35 (b).

(ee) Fail to handle seabirds other than short-tailed albatross that are caught by pelagic longline gear in a manner that maximizes the probability of their long-term survival, in violation of § 660.35 (c).

(ff) Own a longline vessel registered for use under a Hawaii longline limited access permit that is engaged in longline fishing for Pacific pelagic management unit species, without a valid protected species workshop certificate issued by NMFS or a legible copy thereof in violation of § 660.36 (a).

(gg) Fish for Pacific pelagic management unit species on a vessel registered for use under a Hawaii limited access longline permit without having on-board a valid protected species workshop certificate issued by NMFS or a legible copy thereof in violation of § 660.36 (d).

(hh)-(ii) [Reserved]

(jj) Fail to carry line clippers, dip nets, and wire or bolt cutters on a vessel registered for use under a Hawaii longline limited access permit or a longline general permit that has a

§ 660.22

50 CFR Ch. VI (10–1–03 Edition)

freeboard of more than 3 ft (0.9 m) in violation of § 660.32(a).

(kk) Fail to carry line clippers and wire or bolt cutters on a vessel fishing with hooks for Pacific pelagic management unit species within EEZ waters around Hawaii, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Midway, Johnston or Palmyra Atolls, Kingman Reef, and Wake, Jarvis, Baker, or Howland Islands that has a freeboard more than 3 ft (0.9 m) in violation of § 660.32(a)(2).

(ll) Fail to carry line clippers and wire or bolt cutters on a vessel registered for use under a Hawaii longline limited access permit or a longline general permit or on a vessel fishing with hooks for Pacific pelagic management unit species within EEZ waters around Hawaii, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Midway, Johnston or Palmyra Atolls, Kingman Reef, and Wake, Jarvis, Baker, or Howland Islands, that has a freeboard of less than 3 ft (0.9 m) in violation of § 660.32(a)(3).

(mm) Fail to comply with the sea turtle handling, resuscitation, and release requirements when operating a vessel registered for use under a Hawaii longline limited access permit or a longline general permit, or fishing with hooks for Pacific pelagic management unit species within EEZ waters around Hawaii, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Midway, Johnston or Palmyra Atolls, Kingman Reef, and Wake, Jarvis, Baker, or Howland Islands in violation of § 660.32(b).

(nn) Direct fishing effort toward the harvest of swordfish (*Xiphias gladius*) using longline gear deployed north of the equator on a vessel registered for use under a Hawaii longline limited access permit or a longline general permit in violation of § 660.33(a).

(oo) Fish for Pacific pelagic management unit species with a vessel registered for use under a Hawaii longline limited access permit or a longline general permit within closed areas or by use of unapproved gear configurations in violation of § 660.33(b), (c), (g), or (h).

(pp) Use a receiving vessel registered for use under a receiving vessel permit to receive, land, or tranship from another vessel, Pacific pelagic management unit species harvested from closed areas with longline gear in violation of § 660.33(d).

(qq) Land or tranship shoreward of the outer boundary of the EEZ around Hawaii, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Midway, Johnston or Palmyra Atolls, Kingman Reef, and Wake, Jarvis, Baker, or Howland Islands, Pacific pelagic management unit species that were harvested from closed areas with longline gear in violation of § 660.33(e).

(rr) Possess a light stick on board a vessel registered for use under either a Hawaii longline limited access permit or a longline general permit, on fishing trips that include any fishing north of the equator (0° lat.) in violation of § 660.33(f).

(ss) Possess or land more than 10 swordfish on board a vessel registered for use under either a Hawaii longline limited access permit or a longline general permit, from a fishing trip where any part of the trip included fishing north of the equator (0° lat.) in violation of § 660.33(i).

(tt) Operate a vessel registered for use under a Hawaii longline limited access permit or a longline general permit to fish for Pacific pelagic management unit species without having on-board a valid protected species workshop certificate issued by NMFS or a legible copy thereof in violation of § 660.36(c).

(uu) Use a large vessel to fish for Pacific pelagic management unit species within an American Samoa large vessel prohibited area except as allowed pursuant to an exemption issued under § 660.38.

(vv) Use a U.S. vessel employing pelagic handline or trolling methods to fish in the U.S. EEZ around the PRIA without a valid PRIA pelagic troll and handline fishing permit registered for use with that vessel.

[61 FR 34572, July 2, 1996, as amended at 65 FR 16347, Mar. 28, 2000; 67 FR 4371, Jan. 30, 2002; 67 FR 34412, May 14, 2002; 67 FR 40235, June 12, 2002; 67 FR 56502, Sept. 4, 2002; 68 FR 13857, Mar. 21, 2003]

## Fishery Conservation and Management

## § 660.25

### § 660.23 Notifications.

(a) The permit holder for a fishing vessel subject to the requirements of this subpart, or an agent designated by the permit holder, shall provide a notice to the Regional Administrator at least 72 hours (not including weekends and Federal holidays) before the vessel leaves port on a fishing trip, any part of which occurs in the EEZ around Hawaii. The vessel operator will be presumed to be an agent designated by the permit holder unless the Regional Administrator is otherwise notified by the permit holder. The notice must be provided to the office or telephone number designated by the Regional Administrator. The notice must provide the official number of the vessel, the name of the vessel, the intended departure date, time, and location, the name of the operator of the vessel, and the name and telephone number of the agent designated by the permit holder to be available between 8:00 a.m. to 5 p.m. (Hawaii time) on weekdays for NMFS to contact to arrange observer placement.

(b) The operator of any vessel subject to the requirements of this subpart who does not have on board a VMS unit while transiting the protected species zone as defined in §660.12, must notify the NMFS Southwest Enforcement Office (see part 600 for address of Regional Administrator) immediately upon entering and immediately upon departing the protected species zone. The notification must include the name of the vessel, name of the operator, date and time (GMT) of access or exit from the protected species zone, and location by latitude and longitude to the nearest minute.

### § 660.24 Gear identification.

(a) *Identification.* The operator of each permitted vessel in the fishery management area must ensure that the official number of the vessel be affixed to every longline buoy and float, including each buoy and float that is attached to a radar reflector, radio antenna, or flag marker, whether attached to a deployed longline or possessed on board the vessel. Markings must be legible and permanent, and

must be of a color that contrasts with the background material.

(b) *Enforcement action.* Longline gear not marked in compliance with paragraph (a) of this section and found deployed in the EEZ will be considered unclaimed or abandoned property, and may be disposed of in any manner considered appropriate by NMFS or an authorized officer.

### § 660.25 Vessel monitoring system.

(a) *VMS unit.* Only a VMS unit owned by NMFS and installed by NMFS complies with the requirement of this subpart.

(b) *Notification.* After a Hawaii longline limited access permit holder has been notified by the SAC of a specific date for installation of a VMS unit in the permit holder's vessel, the vessel must carry the VMS unit after the date scheduled for installation.

(c) *Fees and charges.* During the experimental VMS program, a Hawaii longline limited access permit holder shall not be assessed any fee or other charges to obtain and use a VMS unit, including the communication charges related directly to requirements under this section. Communication charges related to any additional equipment attached to the VMS unit by the owner or operator shall be the responsibility of the owner or operator and not NMFS.

(d) *Permit holder duties.* The holder of a Hawaii longline limited access permit and the master of the vessel operating under the permit must:

(1) Provide opportunity for the SAC to install and make operational a VMS unit after notification.

(2) Carry the VMS unit on board whenever the vessel is at sea.

(3) Not remove or relocate the VMS unit without prior approval from the SAC.

(e) *Authorization by the SAC.* The SAC has authority over the installation and operation of the VMS unit. The SAC may authorize the connection or order the disconnection of additional equipment, including a computer, to any VMS unit when deemed appropriate by the SAC.

**§ 660.26**

**§ 660.26 Longline fishing prohibited area management.**

(a) *Prohibited areas.* Longline fishing shall be prohibited in the longline fishing prohibited areas as defined in paragraphs (b), (c), and (d) of this section.

(b) *Longline protected species zone.* The protected species zone is 50 nm from the center geographical positions of Nihoa Island, Necker Island, French Frigate Shoals, Gardner Pinnacles, Maro Reef, Laysan Island, Lisianski Island, Pearl and Hermes Reef, Midway Islands, and Kure Island, as defined in § 660.12.

(c) *Main Hawaiian Islands.* (1) From February 1 through September 30 each year, the longline fishing prohibited area around the main Hawaiian Islands is the portion of the EEZ seaward of Hawaii bounded by straight lines connecting the following coordinates in the order listed:

Point	N. lat.	DW. long.
A	18°05'	155°40'
B	18°20'	156°25'
C	20°00'	157°30'
D	20°40'	161°40'
E	21°40'	161°55'
F	23°00'	161°30'
G	23°05'	159°30'
H	22°55'	157°30'
I	21°30'	155°30'
J	19°50'	153°50'
K	19°00'	154°05'
A	18°05'	155°40'

(2) From October 1 through the following January 31 each year, the longline fishing prohibited area around the main Hawaiian Islands is the portion of the EEZ seaward of Hawaii bounded by straight lines connecting the following coordinates in the order listed:

Point	N. lat.	W. long.
A	18°05'	155°40'
L	18°25'	155°40'
M	19°00'	154°45'
N	19°15'	154°25'
O	19°40'	154°20'
P	20°20'	154°55'
Q	20°35'	155°30'
R	21°00'	155°35'
S	22°30'	157°35'
T	22°40'	159°35'
U	22°25'	160°20'
V	21°55'	160°55'
W	21°40'	161°00'
E	21°40'	161°55'
D	20°40'	161°40'
C	20°00'	157°30'
B	18°20'	156°25'

**50 CFR Ch. VI (10–1–03 Edition)**

Point	N. lat.	W. long.
A	18°05'	155°40'

(d) *Guam.* The longline fishing prohibited area around Guam is the waters seaward of Guam bounded by straight lines connecting the following coordinates in the order listed:

Point	N. lat.	E. long.
A	14°25'	144°00'
B	14°00'	143°38'
C	13°41'	144°33'30"
D	13°00'	143°25'30"
E	12°20'	143°37'
F	11°40'	144°09'
G	12°00'	145°00'
H	13°00'	145°42'
I	13°27'	145°51'

**§ 660.27 Exemptions for longline fishing prohibited areas; procedures.**

(a) An exemption permitting a person to use longline gear to fish in a portion(s) of the Hawaii longline fishing prohibited area will be issued to a person who can document that he or she:

(1) Currently owns a Hawaii longline limited access permit issued under this part and registered for use with his or her vessel.

(2) Before 1970, was the owner or operator of a vessel when that vessel landed Pacific pelagic management unit species taken on longline gear in an area that is now within the Hawaii longline fishing prohibited area.

(3) Was the owner or operator of a vessel that landed Pacific pelagic management unit species taken on longline gear in an area that is now within the Hawaii longline fishing prohibited area, in at least 5 calendar years after 1969, which need not be consecutive.

(4) In any one of the 5 calendar years, was the owner or operator of a vessel that harvested at least 80 percent of its total landings, by weight, of longline-caught Pacific pelagic management unit species in an area that is now in the Hawaii longline fishing prohibited area.

(b) Each exemption shall specify the portion(s) of the Hawaii longline fishing prohibited area, bounded by longitudinal and latitudinal lines drawn to include each statistical area, as appearing on Hawaii State Commercial

## Fishery Conservation and Management

## § 660.28

Fisheries Charts, in which the exemption holder made the harvest documented for the exemption application under paragraph (a)(4) of this section.

(c) Each exemption is valid only within the portion(s) of the Hawaii longline fishing prohibited area specified on the exemption.

(d) A person seeking an exemption under this section must submit an application and supporting documentation to the Pacific Area Office at least 15 days before the desired effective date of the exemption.

(e) If the Regional Administrator determines that a gear conflict has occurred and is likely to occur again in the Hawaii longline fishing prohibited area between a vessel used by a person holding an exemption under this section and a non-longline vessel, the Regional Administrator may prohibit all longline fishing in the Hawaii longline fishing prohibited area around the island where the conflict occurred, or in portions thereof, upon notice to each holder of an exemption who would be affected by such a prohibition.

(f) The Council will consider information provided by persons with Hawaii longline limited access permits issued under this part who believe they have experienced extreme financial hardship resulting from the Hawaii longline area closure, and will consider recommendations of the Pelagic Advisory Review Board to assess whether exemptions under this section should continue to be allowed, and, if appropriate, revise the qualifying criteria in paragraph (a) of this section to permit additional exemptions.

(1) If additional exemptions are needed, the Council will advise the Regional Administrator in writing of its recommendation, including criteria by which financial hardships will be mitigated, while retaining the effectiveness of the longline fishing prohibited area.

(2) Following a review of the Council's recommendation and supporting rationale, the Regional Administrator may:

(i) Reject the Council's recommendation, in which case written reasons will be provided by the Regional Administrator to the Council for the rejection; or

(ii) Concur with the Council's recommendation and, after finding that it is consistent with the goals and objectives of the Pelagics FMP, the national standards, and other applicable law, initiate rulemaking to implement the Council's recommendations.

### § 660.28 Conditions for at-sea observer coverage.

(a) NMFS shall advise the permit holder or the designated agent of any observer requirement at least 24 hours (not including weekends and Federal holidays) before any trip for which NMFS received timely notice in compliance with these regulations.

(b) The "Notice Prior to Fishing Trip" requirements in this subpart commit the permit holder to the representations in the notice. The notice can be modified by the permit holder or designated agent because of changed circumstance, if the Regional Administrator is promptly provided a modification to the notice that complies with the notice requirements. The notice will also be considered modified if the Regional Administrator and the permit holder or designated agent agree to placement changes.

(c) When NMFS notifies the permit holder or designated agent of the obligation to carry an observer in response to a notification under this subpart, or as a condition of an EFP issued under §660.17, the vessel may not engage in the fishery without taking the observer.

(d) A NMFS observer shall arrive at the observer's assigned vessel 30 minutes before the time designated for departure in the notice or the notice as modified, and will wait 1 hour for departure.

(e) A permit holder must accommodate a NMFS observer assigned under these regulations. The Regional Administrator's office, and not the observer, will address any concerns raised over accommodations.

(f) The permit holder, vessel operator, and crew must cooperate with the observer in the performance of the observer's duties, including:

(1) Allowing for the embarking and debarking of the observer.

§ 660.28

50 CFR Ch. VI (10-1-03 Edition)

(2) Allowing the observer access to all areas of the vessel necessary to conduct observer duties.

(3) Allowing the observer access to communications equipment and navigation equipment as necessary to perform observer duties.

(4) Allowing the observer access to VMS units to verify operation, obtain data, and use the communication capabilities of the units for official purposes.

(5) Providing accurate vessel locations by latitude and longitude or loran coordinates, upon request by the observer.

(6) Providing sea turtle, marine mammal, or sea bird specimens as requested.

(7) Notifying the observer in a timely fashion when commercial fishing operations are to begin and end.

(g) The permit holder, operator, and crew must comply with other terms and conditions to ensure the effective deployment and use of observers that the Regional Administrator imposes by written notice.

(h) The permit holder must ensure that assigned observers are provided living quarters comparable to crew members and are provided the same meals, snacks, and amenities as are normally provided to other vessel personnel. A mattress or futon on the floor or a cot is not acceptable if a regular bunk is provided to any crew member, unless other arrangements are approved in advance by the Regional Administrator.

(i) Reimbursement requirements are as follows:

(1) Upon observer verification of vessel accommodations and the number of assigned days on board, NMFS will reimburse vessel owners a reasonable amount for observer subsistence as determined by the Regional Administrator.

(2) If requested and properly documented, NMFS will reimburse the vessel owner for the following:

(i) Communications charges incurred by the observer.

(ii) Lost fishing time arising from a seriously injured or seriously ill observer, provided that notification of the nature of the emergency is trans-

mitted to the Fisheries Observer Branch, Southwest Region, NMFS (see address for Southwest Regional Administrator) at the earliest practical time. NMFS will reimburse the owner only for those days during which the vessel is unable to fish as a direct result of helping the NMFS employee who is seriously injured or seriously ill. Lost fishing time is based on time travelling to and from the fishing grounds and any documented out-of-pocket expenses for medical services. Payment will be based on the current target fish market prices and that vessel's average target fish catch retained per day at sea for the previous 2 years, but shall not exceed \$5,000 per day or \$20,000 per claim. Detailed billing with receipts and supporting records are required for allowable communication and lost fishing time claims. The claim must be completed in ink, showing the claimant's printed name, address, vessel name, observer name, trip dates, days observer on board, an explanation of the charges, and claimant's dated signature with a statement verifying the claim to be true and correct. Requested reimbursement claims must be submitted to the Fisheries Observer Branch, Southwest Region, NMFS. NMFS will not process reimbursement invoices and documentation submitted more than 120 days after the occurrence.

(j) If a vessel normally has cabins for crew members, female observers on a vessel with an all-male crew must be accommodated either in a single person cabin or, if NMFS concludes that adequate privacy can be ensured by installing a curtain or other temporary divider, in a two-person shared cabin. If the vessel normally does not have cabins for crew members, alternative accommodations must be approved by NMFS. If a cabin assigned to a female observer does not have its own toilet and shower facilities that can be provided for the exclusive use of the observer, or if no cabin is assigned, then arrangements for sharing common facilities must be established and approved in advance by NMFS.

## Fishery Conservation and Management

## § 660.32

### § 660.29 Port privileges and transiting for unpermitted U.S. longline vessels.

A U.S. longline fishing vessel that does not have a permit under subpart B of this part may enter waters of the fishery management area with Pacific pelagic management unit species on board, but may not land or transship any management unit species on board the vessel. The vessel's longline gear must be stowed or secured so it is rendered unusable during the time the vessel is in those waters.

### § 660.30 Prohibition of drift gillnetting.

Fishing with drift gillnets in the fishery management area is prohibited, except where authorized by an EFP issued under § 660.17.

### § 660.31 Framework adjustments to management measures.

(a) *Introduction.* Adjustments in management measures may be made through rulemaking if new information demonstrates that there are biological, social, or economic concerns in the fishery. The following framework process authorizes the implementation of measures that may affect the operation of the fisheries, gear, harvest guidelines, or changes in catch and/or effort.

(b) *Annual report.* By June 30 of each year, the Council-appointed Pelagics Plan Team will prepare an annual report on the fisheries in the management area. The report shall contain, among other things, recommendations for Council action and an assessment of the urgency and effects of such action(s).

(c) *Procedure for established measures.* (1) Established measures are management measures that, at some time, have been included in regulations implementing the FMP, and for which the impacts have been evaluated in Council/NMFS documents in the context of current conditions.

(2) Following the framework procedures of Amendment 7 to the Pelagics FMP, the Council may recommend to the Regional Administrator that established measures be modified, removed, or re-instituted. Such recommendation shall include supporting rationale and analysis, and shall be made after advance public notice, public discussion,

and consideration of public comment. NMFS may implement the Council's recommendation by rulemaking if approved by the Regional Administrator.

(d) *Procedure for new measures.* (1) New measures are management measures that have not been included in regulations implementing the FMP, or for which the impacts have not been evaluated in Council/NMFS documents in the context of current conditions.

(2) Following the framework procedures of Amendment 7 to the Pelagics FMP, the Council will publicize, including by FEDERAL REGISTER notice, and solicit public comment on, any proposed new management measure. After a Council meeting at which the measure is discussed, the Council will consider recommendations and prepare a FEDERAL REGISTER notice summarizing the Council's deliberations, rationale, and analysis for the preferred action, and the time and place for any subsequent Council meeting(s) to consider the new measure. At subsequent public meeting(s), the Council will consider public comments and other information received to make a recommendation to the Regional Administrator about any new measure. NMFS may implement the Council's recommendation by rulemaking if approved by the Regional Administrator.

### § 660.32 Sea turtle take mitigation measures.

(a) *Possession and use of required mitigation gear*—(1) Owners and operators of vessels registered for use under a Hawaii longline limited access permit or (after July 12, 2002) a longline general permit that have a freeboard more than 3 ft (0.9 m) must carry aboard their vessels line clippers meeting the minimum design standards as specified in paragraph (a)(4) of this section, dip nets meeting minimum standards prescribed in paragraph (a)(5) of this section, and wire or bolt cutters capable of cutting through the vessel's hooks. These items must be used to disengage any hooked or entangled sea turtles with the least harm possible to the sea turtles and as close to the hook as possible in accordance with the requirements specified in paragraphs (b) through (d) of this section.

(2) Owners and operators of vessels using hooks to target Pacific pelagic management unit species within EEZ waters around Hawaii, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Midway, Johnston or Palmyra Atolls, Kingman Reef, and Wake, Jarvis, Baker, or Howland Islands, that have a freeboard more than 3 ft (0.9 m) must carry aboard their vessels line clippers meeting the minimum design standards as specified in paragraph (a)(4) of this section, and wire or bolt cutters capable of cutting through the vessel's hooks. These items must be used to disengage any hooked or entangled sea turtles with the least harm possible to the sea turtles and as close to the hook as possible in accordance with the requirements specified in paragraphs (b) through (d) of this section.

(3) Owners and operators of vessels registered for use under a Hawaii longline limited access permit or a longline general permit, or using hooks to target Pacific pelagic management unit species within EEZ waters around Hawaii, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Midway, Johnston or Palmyra Atolls, Kingman Reef, and Wake, Jarvis, Baker, or Howland Islands, that have a freeboard of 3 ft (0.9 m) or less must carry aboard their vessels line clippers capable of cutting the vessels fishing line or leader within approximately 1 ft (0.3 m) of the eye of an embedded hook as well as wire or bolt cutters capable of cutting through the vessel's hooks. These items must be used to disengage any hooked or entangled sea turtles with the least harm possible to the sea turtles and as close to the hook as possible in accordance with the requirements specified in paragraphs (b) through (d) of this section.

(4) *Line clippers.* Line clippers are intended to cut fishing line as close as possible to hooked or entangled sea turtles. NMFS has established minimum design standards for line clippers. The Arceneaux line clipper (ALC) is a model line clipper that meets these minimum design standards and may be fabricated from readily available and low-cost materials (figure 1). The minimum design standards are as follows:

(i) *A protected cutting blade.* The cutting blade must be curved, recessed, contained in a holder, or otherwise afforded some protection to minimize direct contact of the cutting surface with sea turtles or users of the cutting blade.

(ii) *Cutting blade edge.* The blade must be capable of cutting 2.0–2.1 mm monofilament line and nylon or polypropylene multistrand material commonly known as braided mainline or tarred mainline.

(iii) *An extended reach holder for the cutting blade.* The line clipper must have an extended reach handle or pole of at least 6 ft (1.82 m).

(iv) *Secure fastener.* The cutting blade must be securely fastened to the extended reach handle or pole to ensure effective deployment and use.

(5) *Dip nets.* Dip nets are intended to facilitate safe handling of sea turtles and access to sea turtles for purposes of cutting lines in a manner that minimizes injury and trauma to sea turtles. The minimum design standards for dip nets that meet the requirements of this section are:

(i) *An extended reach handle.* The dip net must have an extended reach handle of at least 6 ft (1.82 m) of wood or other rigid material able to support a minimum of 100 lbs (34.1 kg) without breaking or significant bending or distortion.

(ii) *Size of dip net.* The dip net must have a net hoop of at least 31 inches (78.74 cm) inside diameter and a bag depth of at least 38 inches (96.52 cm). The bag mesh openings may be no more than 3 inches × 3 inches (7.62 cm × 7.62 cm).

(b) *Handling requirements.* (1) All incidentally taken sea turtles brought aboard for dehooking and/or disentanglement must be handled in a manner to minimize injury and promote post-hooking survival.

(2) When practicable, comatose sea turtles must be brought on board immediately, with a minimum of injury, and handled in accordance with the procedures specified in paragraphs (c) and (d) of this section.

(3) If a sea turtle is too large or hooked in such a manner as to preclude safe boarding without causing further

## Fishery Conservation and Management

## § 660.32

damage/injury to the turtle, line clip-pers described in paragraph (a)(1) of this section must be used to clip the line and remove as much line as possible prior to releasing the turtle.

(c) *Resuscitation.* If the sea turtle brought aboard appears dead or comatose, the sea turtle must be placed on its belly (on the bottom shell or plastron) so that the turtle is right side up and its hindquarters elevated at least 6 inches (15.24 cm) for a period of no less than 4 hours and no more than 24 hours. The amount of the elevation depends on the size of the turtle; greater elevations are needed for larger turtles. A reflex test, performed by gently touching the eye and pinching the tail of a sea turtle, must be administered by a vessel operator, at least every 3 hours, to determine if the sea turtle is responsive. Sea turtles being resuscitated must be shaded and kept damp or moist but under no circumstance may be placed into a container holding

water. A water-soaked towel placed over the eyes, carapace, and flippers is the most effective method in keeping a turtle moist. Those that revive and become active must be returned to the sea in the manner described in paragraph (d) of this section. Sea turtles that fail to revive within the 24-hour period must also be returned to the sea in the manner described in paragraph (d)(1) of this section.

(d) *Release.* Live turtles must be returned to the sea after handling in accordance with the requirements of paragraphs (b) and (c) of this section:

(1) By putting the vessel engine in neutral gear so that the propeller is disengaged and the vessel is stopped, and releasing the turtle away from deployed gear; and

(2) Observing that the turtle is safely away from the vessel before engaging the propeller and continuing operations.

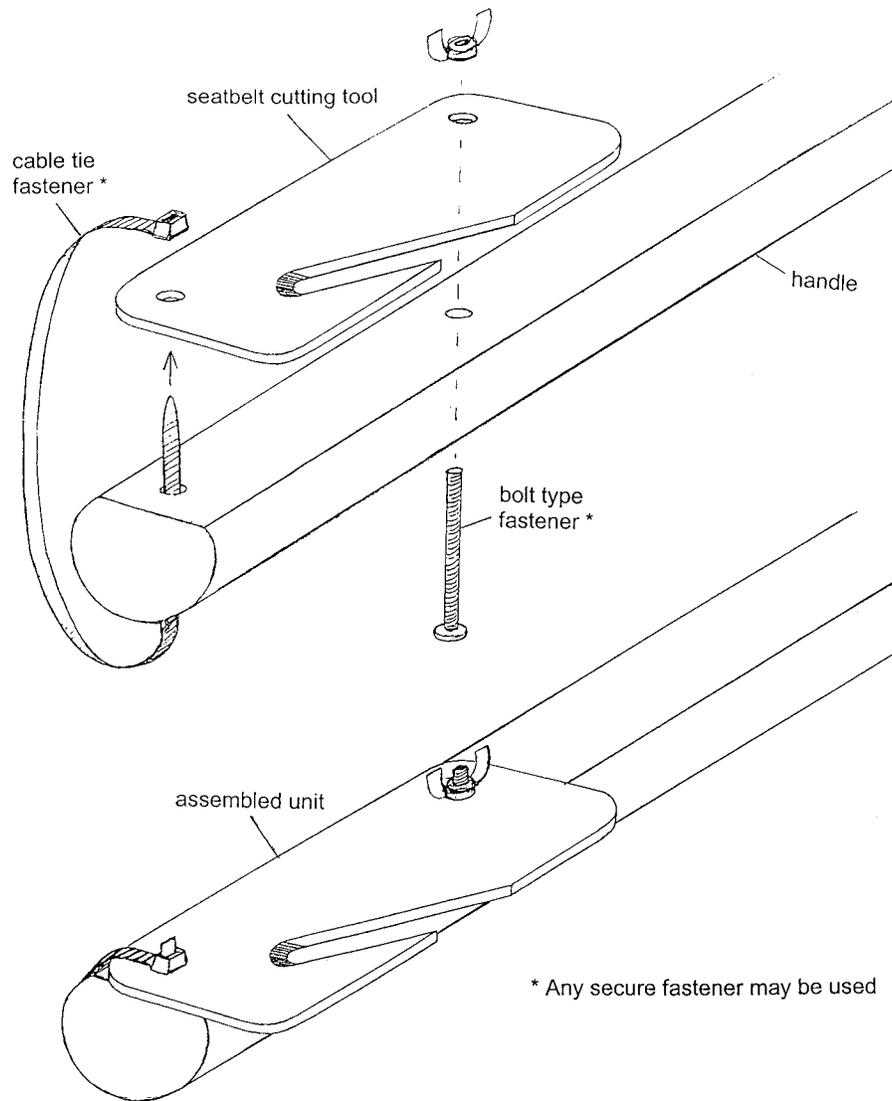

Figure 1 – Sample Fabricated Arceneaux Line Clipper

[65 FR 16347, Mar. 28, 2000, as amended at 67 FR 40236, June 12, 2002; 67 FR 48576, July 25, 2002]

**§ 660.33 Western Pacific longline fishing restrictions.**

(a) Owners and operators of vessels registered for use under a Hawaii

longline limited access permit or a longline general permit may not use longline gear to fish for or target swordfish (*Xiphias gladius*) north of the equator (0° lat.).

(b) A person aboard a vessel registered for use under a Hawaii longline limited access permit or a western Pacific general longline permit that is fishing for Pacific pelagic management unit species north of the equator ( $0^{\circ}$  lat.) may not possess or deploy any float line that is shorter than or equal to 20 m (65.6 ft or 10.9 fm). As used in this paragraph "float line" means a line used to suspend the main longline beneath a float.

(c) From April 1 through May 31, owners and operators of vessels registered for use under a Hawaii longline limited access permit or a longline general permit may not use longline gear in waters bounded on the south by  $0^{\circ}$  lat., on the north by  $15^{\circ}$  N. lat., on the east by  $145^{\circ}$  W. long., and on the west by  $180^{\circ}$  long. (see Figure 1 to this section).

(d) From April 1 through May 31, owners and operators of vessels registered for use under a receiving vessel permit may not receive from another vessel Pacific pelagic management unit species that were harvested by longline gear in waters bounded on the south by  $0^{\circ}$  lat., on the north by  $15^{\circ}$  N. lat., on the east by  $145^{\circ}$  W. long., and on the west by  $180^{\circ}$  long. (see Figure 1 to this section).

(e) From April 1 through May 31, owners and operators of vessels registered for use under a Hawaii longline limited access permit, a longline general permit, or a receiving vessel permit, may not land or transship shoreward of the outer boundary of the EEZ around Hawaii, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Midway, Johnston or Palmyra Atolls, Kingman Reef, and Wake, Jarvis, Baker, or Howland Islands, Pacific pelagic management unit species that were harvested by longline gear in waters

bounded on the south by 0 latitude, on the north by  $15^{\circ}$  N. lat., on the east by  $145^{\circ}$  W. long., and on the west by  $180^{\circ}$  long. (see Figure 1 to this section).

(f) No light stick may be possessed on board a vessel registered for use under either a Hawaii longline limited access permit or a longline general permit, during fishing trips that include any fishing north of the equator ( $0^{\circ}$  lat.). A light stick as used in this paragraph is any type of light emitting device, including any fluorescent "glow bead," chemical, or electrically powered light that is affixed underwater to the longline gear.

(g) When a conventional monofilament longline is deployed in the water north of  $0^{\circ}$  lat. by a vessel registered for use under a Hawaii longline limited access permit or a longline general permit, no fewer than 15 branch lines may be set between any 2 floats when fishing north of the equator. Vessel operators using basket-style longline gear must set a minimum of 10 branch lines between any 2 floats when fishing north of the equator.

(h) Longline gear deployed north of  $0^{\circ}$  lat. by a vessel registered for use under a Hawaii longline limited access permit or a longline general permit must be deployed such that the deepest point of the main longline between any 2 floats, i.e., the deepest point in each sag of the main line, is at a depth greater than 100 m (328.1 ft or 54.6 fm) below the sea surface.

(i) Owners and operators of longline vessels registered for use under a Hawaii longline limited access permit or a longline general permit may land or possess no more than 10 swordfish from a fishing trip where any part of the trip included fishing north of the equator ( $0^{\circ}$  lat.).

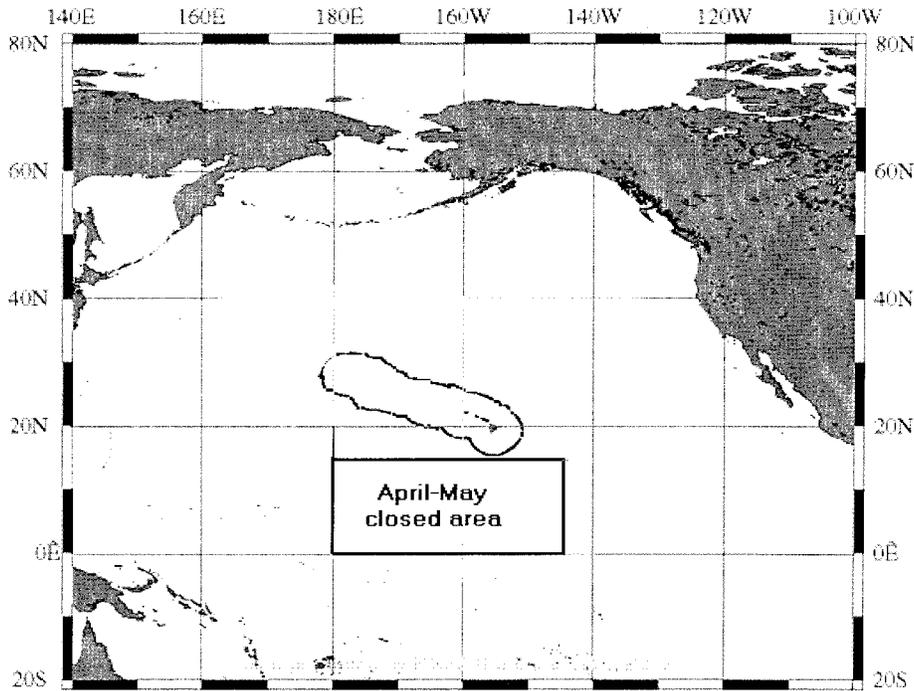

Figure 1 to § 660.33 - Longline Fishing Restricted Area

[67 FR 40236, June 12, 2002]

**§ 660.34 Protected species workshop.**

(a) Each year the operator of a vessel registered for use under a Hawaii longline limited access permit or (after August 31, 2002) a longline general permit must attend and be certified for completion of a workshop conducted by NMFS on mitigation, handling, and release techniques for turtles and seabirds and other protected species.

(b) A protected species workshop certificate will be issued by NMFS annually to any person who has completed the workshop.

(c) An operator of a vessel registered for use under Hawaii longline limited access permit or a longline general permit and engaged in longline fishing, must have on board the vessel a valid protected species workshop certificate

issued by NMFS or a legible copy thereof.

[67 FR 40237, June 12, 2002]

**§ 660.35 Pelagic longline seabird mitigation measures.**

(a) *Seabird mitigation techniques.* Owners and operators of vessels registered for use under a Hawaii longline limited access permit must ensure that the following actions are taken when fishing north of 23° N. lat.:

(1) Employ a line setting machine or line shooter to set the main longline when making deep sets using monofilament main longline;

(2) Attach a weight of at least 45 g to each branch line within 1 m of the hook when making deep sets using monofilament main longline;

(3) When using basket-style longline gear, ensure that the main longline is deployed slack to maximize its sink rate;

(4) Use completely thawed bait that has been dyed blue to an intensity level specified by a color quality control card issued by NMFS;

(5) Maintain a minimum of two cans (each sold as 0.45 kg or 1 lb size) containing blue dye on board the vessel;

(6) Discharge fish, fish parts (offal), or spent bait while setting or hauling longline gear, on the opposite side of the vessel from where the longline gear is being set or hauled;

(7) Retain sufficient quantities of fish, fish parts, or spent bait, between the setting of longline gear for the purpose of strategically discharging it in accordance with paragraph (a)(6) of this section;

(8) Remove all hooks from fish, fish parts, or spent bait prior to its discharge in accordance with paragraph (a)(6) of this section; and

(9) Remove the bill and liver of any swordfish that is caught, sever its head from the trunk and cut it in half vertically, and periodically discharge the butchered heads and livers in accordance with paragraph (a)(6) of this section.

(b) *Short-tailed albatross handling techniques.* If a short-tailed albatross is hooked or entangled by a vessel registered for use under a Hawaii longline limited access permit, owners and operators must ensure that the following actions are taken:

(1) Stop the vessel to reduce the tension on the line and bring the bird on board the vessel using a dip net;

(2) Cover the bird with a towel to protect its feathers from oils or damage while being handled;

(3) Remove any entangled lines from the bird;

(4) Determine if the bird is alive or dead.

(i) If dead, freeze the bird immediately with an identification tag attached directly to the specimen listing the species, location and date of mortality, and band number if the bird has a leg band. Attach a duplicate identification tag to the bag or container holding the bird. Any leg bands present must remain on the bird. Contact NMFS, the Coast Guard, or the U.S. Fish and Wildlife Service at the numbers listed on the Short-tailed Albatross Handling Placard distributed at

the NMFS protected species workshop, inform them that you have a dead short-tailed albatross on board, and submit the bird to NMFS within 72 hours following completion of the fishing trip.

(ii) If alive, handle the bird in accordance with paragraphs (b)(5) through (b)(10) of this section.

(5) Place the bird in a safe enclosed place;

(6) Immediately contact NMFS, the Coast Guard, or the U.S. Fish and Wildlife Service at the numbers listed on the Short-tailed Albatross Handling Placard distributed at the NMFS protected species workshop and request veterinary guidance;

(7) Follow the veterinary guidance regarding the handling and release of the bird.

(8) Complete the short-tailed albatross recovery data form issued by NMFS.

(9) If the bird is externally hooked and no veterinary guidance is received within 24–48 hours, handle the bird in accordance with paragraphs (c)(4) and (c)(5) of this section, and release the bird only if it meets the following criteria:

(i) Able to hold its head erect and respond to noise and motion stimuli;

(ii) Able to breathe without noise;

(iii) Capable of flapping and retracting both wings to normal folded position on its back;

(iv) Able to stand on both feet with toes pointed forward; and

(v) Feathers are dry.

(10) If released under paragraph (a)(8) of this section or under the guidance of a veterinarian, all released birds must be placed on the sea surface.

(11) If the hook has been ingested or is inaccessible, keep the bird in a safe, enclosed place and submit it to NMFS immediately upon the vessel's return to port. Do not give the bird food or water.

(12) Complete the short-tailed albatross recovery data form issued by NMFS.

(c) *Non-short-tailed albatross seabird handling techniques.* If a seabird other than a short-tailed albatross is hooked or entangled by a vessel registered for use under a Hawaii longline limited access permit owners and operators must

**§ 660.36**

ensure that the following actions are taken:

- (1) Stop the vessel to reduce the tension on the line and bring the seabird on board the vessel using a dip net;
- (2) Cover the seabird with a towel to protect its feathers from oils or damage while being handled;
- (3) Remove any entangled lines from the seabird;
- (4) Remove any external hooks by cutting the line as close as possible to the hook, pushing the hook barb out point first, cutting off the hook barb using bolt cutters, and then removing the hook shank;
- (5) Cut the fishing line as close as possible to ingested or inaccessible hooks;
- (6) Leave the bird in a safe enclosed space to recover until its feathers are dry; and
- (7) After recovered, release seabirds by placing them on the sea surface.

[67 FR 34412, May 14, 2002]

**§ 660.36 Protected species workshop.**

(a) Each year both the owner and the operator of a vessel registered for use under a Hawaii longline limited access permit must attend and be certified for completion of a workshop conducted by NMFS on mitigation, handling, and release techniques for turtles and seabirds and other protected species.

(b) A protected species workshop certificate will be issued by NMFS annually to any person who has completed the workshop.

(c) An owner of a vessel registered for use under a Hawaii longline limited access permit must maintain and have on file a valid protected species workshop certificate issued by NMFS in order to maintain or renew their vessel registration.

(d) An operator of a vessel registered for use under a Hawaii longline limited access permit and engaged in longline fishing, must have on board the vessel a valid protected species workshop certificate issued by NMFS or a legible copy thereof.

[67 FR 34413, May 14, 2002]

**50 CFR Ch. VI (10–1–03 Edition)**

**§ 660.37 American Samoa pelagic fishery area management.**

(a) *Large vessel prohibited areas.* A large vessel of the United States may not be used to fish for Pacific pelagic management unit species in the American Samoa large vessel prohibited areas as defined in paragraphs (b) and (c) of this section, except as allowed pursuant to an exemption issued under § 660.38.

(b) *Tutuila Island, Manu'a Islands, and Rose Atoll (AS-1).* The large vessel prohibited area around Tutuila Island, the Manu'a Islands, and Rose Atoll consists of the waters of the EEZ around American Samoa enclosed by straight lines connecting the following coordinates:

Point	S. lat.	W. long.
AS-1-A	13° 30'	167° 25'
AS-1-B	15° 13'	167° 25'

and from Point AS-1-A westward along the latitude 13° 30' S. until intersecting the U.S. EEZ boundary with Samoa, and from Point AS-1-B westward along the latitude 15° 13' S. until intersecting the U.S. EEZ boundary with Samoa.

(c) *Swains Island (AS-2).* The large vessel prohibited area around Swains Island consists of the waters of the EEZ around American Samoa enclosed by straight lines connecting the following coordinates:

Point	S. lat.	W. long.
AS-2-A	11° 48'	171° 50'
AS-2-B	11° 48'	170° 20'

and from Point AS-2-A northward along the longitude 171° 50' W. until intersecting the U.S. EEZ boundary with Tokelau, and from Point AS-2-B northward along the longitude 170° 20' W. until intersecting the U.S. EEZ boundary with Tokelau.

[67 FR 4371, Jan. 30, 2002]

**§ 660.38 Exemptions for American Samoa large vessel prohibited areas.**

(a) An exemption will be issued to a person who currently owns a large vessel, to use that vessel to fish for Pacific pelagic management unit species in the American Samoa large vessel prohibited management areas, if he or she

had been the owner of that vessel when it was registered for use with a longline general permit and made at least one landing of Pacific pelagic management unit species in American Samoa on or prior to November 13, 1997.

(b) A landing of Pacific pelagic management unit species for the purpose of this section must have been properly recorded on a NMFS Western Pacific Federal daily longline form that was submitted to NMFS, as required in § 660.14.

(c) An exemption is valid only for a vessel that was registered for use with a longline general permit and landed Pacific pelagic management unit species in American Samoa on or prior to November 13, 1997, or for a replacement vessel of equal or smaller LOA than the vessel that was initially registered for use with a longline general permit on or prior to November 13, 1997.

(d) An exemption is valid only for the vessel for which it is registered. An exemption not registered for use with a particular vessel may not be used.

(e) An exemption may not be transferred to another person.

(f) If more than one person, e.g., a partnership or corporation, owned a large vessel when it was registered for use with a longline general permit and made at least one landing of Pacific pelagic management unit species in American Samoa on or prior to November 13, 1997, an exemption issued under this section will be issued to only one person.

[67 FR 4371, Jan. 30, 2002]

### Subpart D—Western Pacific Crustacean Fisheries

#### § 660.41 Permits.

(a) *Applicability.* (1) The owner of any vessel used to fish for lobster in Permit Area 1 must have a limited access permit issued for such vessel. Only one permit will be assigned to any vessel.

(2) The owner of any vessel used to fish for lobster in Permit Area 2 or Permit Area 3, must have a permit issued for such a vessel.

(3) No vessel owner will have permits for a single vessel to harvest lobsters

in Permit Areas 1 and 2 at the same time.

(4) A limited access permit is valid for fishing only in Permit Area 1.

(b) *General requirements.* General requirements governing application information, issuance, fees, expiration, replacement, transfer, alteration, display, sanctions, and appeals for permits issued under this section, as applicable, are contained in § 660.13.

(c) *Application.* An application for a permit required under this section will be submitted to the Pacific Area Office as described in § 660.13. If the application for a limited access permit is submitted on behalf of a partnership or corporation, the application must be accompanied by a supplementary information sheet obtained from the Pacific Area Office and contain the names and mailing addresses of all partners or shareholders and their respective percentage of ownership in the partnership or corporation.

(d) *Number of permits.* A maximum of 15 limited access permits can be valid at any time.

(e) *Transfer or sale of limited access permits.* (1) Permits may be transferred or sold, but no one individual, partnership, or corporation will be allowed to hold a whole or partial interest in more than one permit, except that an owner who qualifies initially for more than one permit may maintain those permits, but may not obtain additional permits. Layering of partnerships or corporations shall not insulate a permit holder from this requirement.

(2) If 50 percent or more of the ownership of a limited access permit is passed to persons other than those listed on the permit application, the Pacific Area Office must be notified of the change in writing and provided copies of the appropriate documents confirming the changes within 30 days.

(3) Upon the transfer or sale of a limited access permit, a new application must be submitted by the new permit owner according to the requirements of § 660.13. The transferred permit is not valid until this process is completed.

(f) *Replacement of a vessel covered by a limited access permit.* A limited access permit issued under this section may, without limitation as to frequency, be transferred by the permit holder to a
