## 2003-2007 Change Scene California

-  Large Decrease in Veg Cover
-  Moderate Decrease in Veg Cover
-  Slight Decrease in Veg Cover
-  Little or No Change
-  Slight Increase in Veg Cover
-  Moderate to Large Increase in Veg Cover
-  Undefined

## 1998-2003 change scene california

-  Decreased Forest
-  Decreased Non Forest

## North Coast California 1994-1998 Change Scene

-  Large decrease -71 to -100%
-  Moderate decrease -41 to -70%
-  Small decrease -16 to -40%
-  Little or no change +15 to -15%
-  Small increase +16 to +40%
-  Large increase +41 to 100%
-  Non-veg change (including urban)
-  Shrub/Grass decrease >15%
-  Shrub/Grass increase >15%
-  Cloud/Fog/Smoke
-  Undefined

## Northeastern Cascades California 1994-1999 Change Scene

-  71 to 100% cover decrease
-  41 to 70% cover decrease
-  16 to 40% cover decrease
-  +15 to -15% Little or no change
-  16 to 40% increase in cover
-  41 to 100% increase in cover
-  Non-veg change including urb
-  Shrub/Grass decrease > 15%
-  Shrub/Grass increase > 15%
-  cloud/shadow/smoke
-  Undefined

## Change-Scene Oregon 1972-2002

-  Timber Harvest
-  Harvest and Fire
-  Fire

-  6th Field Watersheds (Oregon)
-  Calwater Planning Watersheds (California)

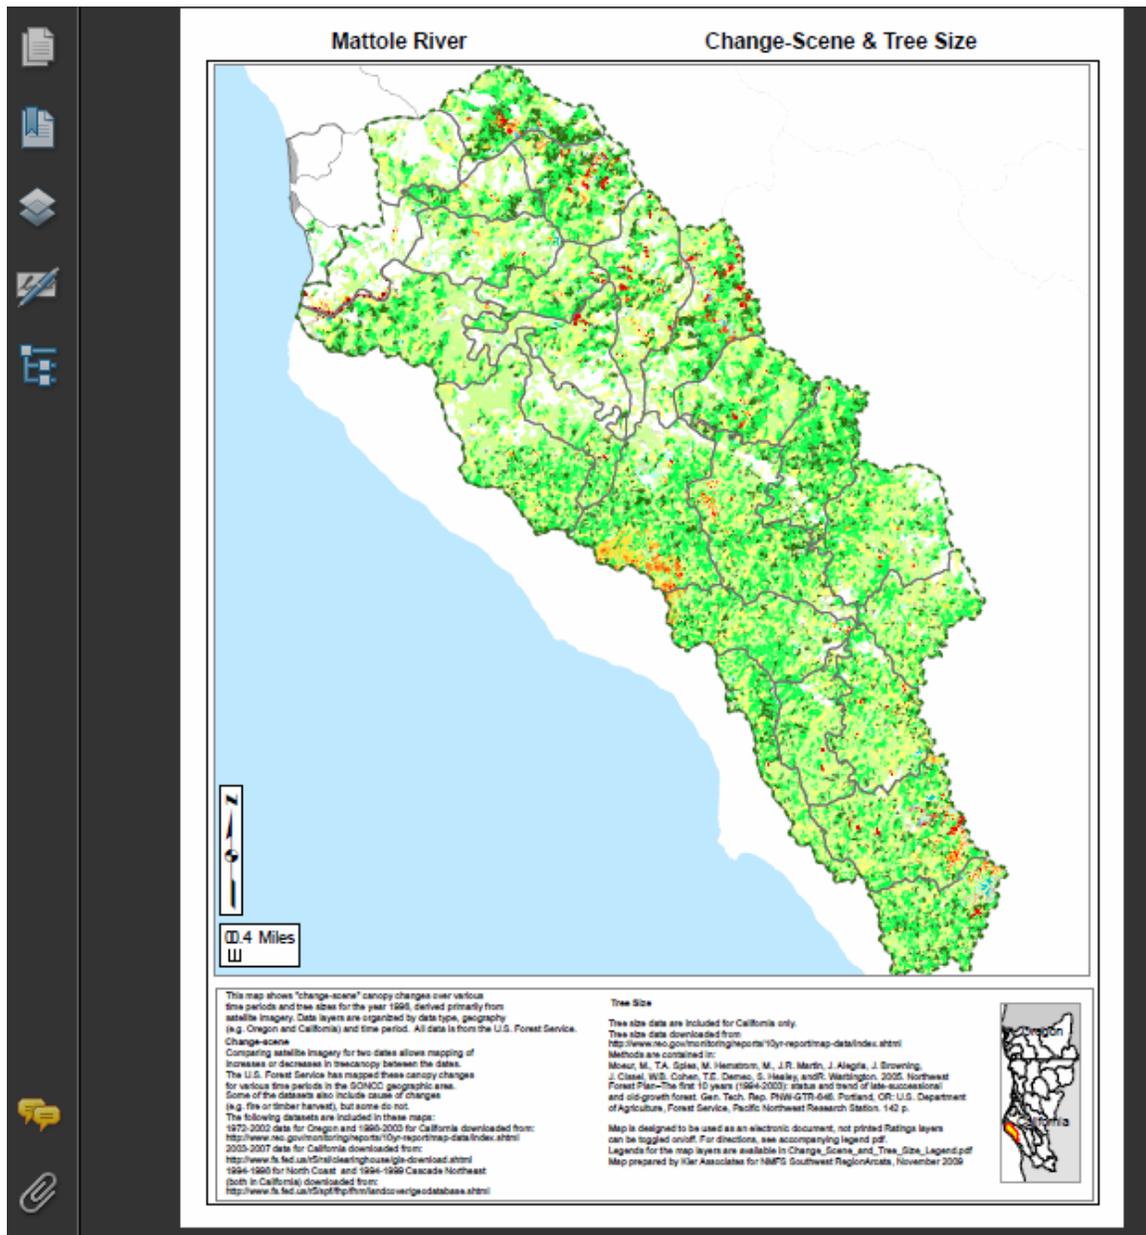

## California Tree Size

-  Large Trees (>30 inch diameter)
-  Medium Trees (20-29.9 inch diameter)
-  Small Trees (10-19.9 inch diameter)
-  Very Small Trees (<10 inch diameter)

## How to view GIS map layers that have been exported to a PDF document

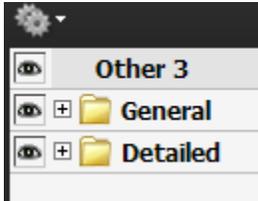

The current versions of ESRI's ArcMap program (9.2 and later) allow the export of GIS layers, a legend, a North Arrow and a scale bar to an Acrobat document. To view these documents with map layers you need the free Adobe Reader version 8.1 or higher. The Adobe Reader program can be downloaded from the web from <http://www.adobe.com/>.

An example of a PDF map in Adobe Reader 9.1 is shown below.

A click on  will open the layers table contents and show the layers available. Initially an abbreviated outline is shown.

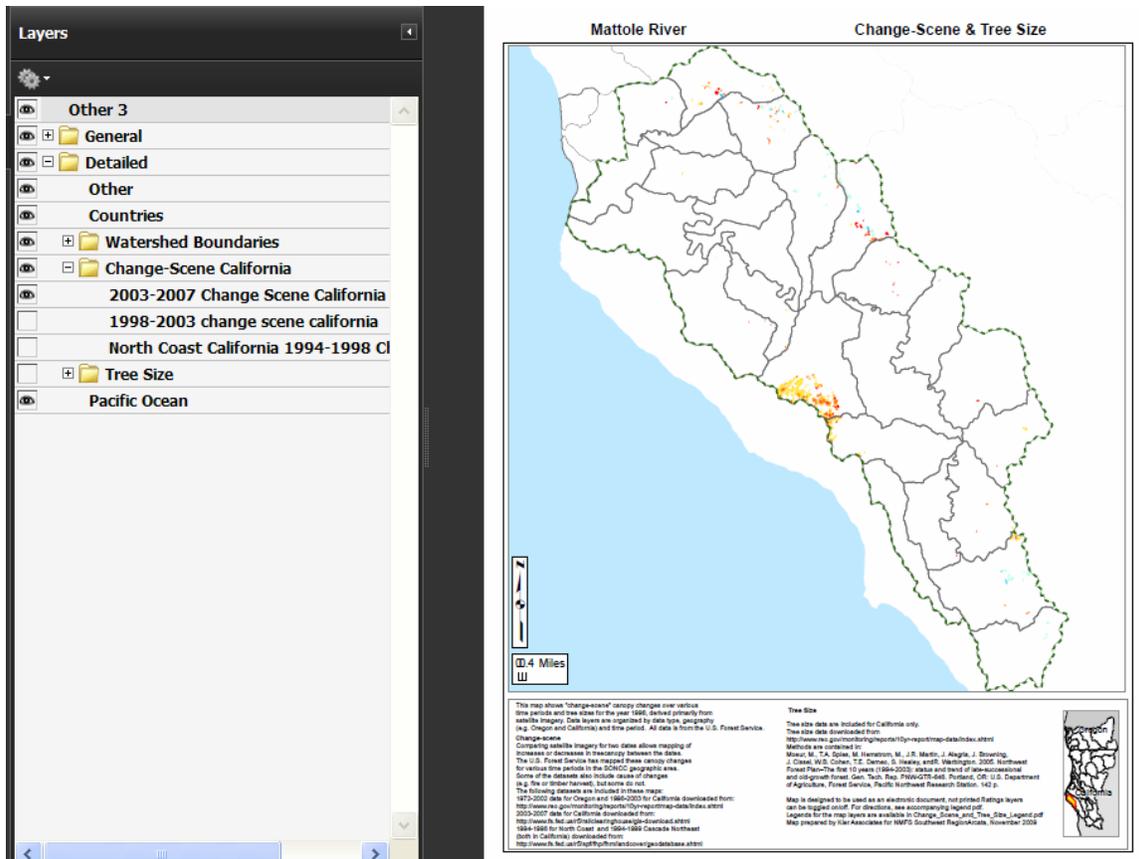

Click the + symbol next to a layer group to expand the group and see all layers.

Click the eye symbol next to a layer or layer group to toggle the visibility of the layer or group of layers.

Layers at the top of the list that have polygons with solid colors will obscure layers lower in the list. To review Tree Size, turn off Change-Scene. by clicking on its eye symbol.

To review 2003-2007 Change Scene California, click off the eyes in front of all other polygon layers.

The Coho Population Boundaries layer does not need to be clicked off because it consists of transparent polygons.

The width of the layer Table of Contents can be changed by dragging the vertical line separating the TOC and the map image. Move the cursor slowly from the TOC to the map in a horizontal movement until the cursor changes into a division <-||-> symbol. Drag the sidepanel to the right to make it wider or to the left to make it narrower.

Click on the  button to see the entire map on one screen.

allows seeing greater detail.
